## Global Water Metering Market Dataset (2019 – 2028)

The global water metering market sees investment of billions of dollars per year. The market includes legacy residential metering, smart residential metering (including both one-way communicating AMR meters and two-way communicating AMI meters), commercial meters and industrial meters. Annual investment growth in water metering is being driven primarily by a transition to the higher value AMI segment. This dataset of over 30,000 data points draws on primary research and a bottom-up analysis, covering 125 individual countries that comprise more than 98% of the global market.

This dataset was compiled from primary sources. Northeast Group compiled primary sources from each of the 125 countries in order to build a bottom-up analysis of the global market. This ensures that the data is not a top-down estimate, compiled on a regional or global basis, but rather a country-by-country and segment-by-segment analysis that provides a detailed and exhaustive picture of the global market.

### Data Split by Segment

The data is broken down into three primary segments, including 16 total lines of data for each country:

- Residential communicating meters;
- Residential legacy meters; and
- Commercial and industrial meters.

ANNUAL SHIPMENTS OF COMMUNICATING METERS BY REGION (UNITS)

### Forecasts to 2028

Northeast Group has projected the water metering market out to 2028 for each of the 125 countries and for each segment of the market. These forecasts are compiled from primary source data run through Northeast Group's proprietary forecasting models.

### Excel Format Allowing for Customization

The dataset is compiled in Excel, allowing for easy data manipulation and customization by clients. An executive summary slide presentation is also included as part of the research package.

**Deliverables:** Excel dataset + 41-slide executive summary presentation.
